

Page	Issues	Notes
https://iweb.langara.ca/virtuallearningsupport/	<ol style="list-style-type: none"> 1. Virtuallearningsupport/library-services x3 link. This I believe is in the header? (although I can't seem to locate it in the source code) 2. Heading levels skipped. Ensure consistent, hierarchical, nested heading levels. 3. Contact VLS should be H4. 4. "Download Online Learning Tips" links to a PDF, should be indicated as such. 5. Add "skip to main content" link as first keyboard focusable element 6. "Learn More" are not descriptive links 7. Links should be underlined. 8. The icons that link to pages should have aria hidden tag, that's awesome, but due to the syntax they hide the icon but not the link, thus the link is repeated for screenreaders 9. In footer there is an image generating a missing alt warning. It's line 756 . Just mark it with alt="", thanks. Based on the image source, I don't think it even appears visually on the page. If so, remove. 	<ol style="list-style-type: none"> 1. <div>  <pre> </div> <div id="desktopHead_wrapper"> <div id="desktopHead"> <div class="site_title"> </div> </div> <div id="desktopMenuWrapper" class="desktop-menu-wrapper"> flex <div id="desktop-menu"> </div> </div> </div> <div id="wrapper" class="hfeed"></div> overflow <div id="footerVLS"></div> </pre> </div> 2. 3. 4. Change to "Download Online Learning Tips (PDF)" 5. https://webaim.org/techniques/skipnav/ 6. When viewing (or hearing) a list of links non-descriptive links are not useful. 7. _

		8.
https://iweb.lanegara.ca/virtuallearningsupport/contact-us/	Done/page removed.	
https://iweb.lanegara.ca/virtuallearningsupport/calendar/	<ol style="list-style-type: none"> Calendar controls at top. Reads as if the previous month is June 2020 and next month is August 2022. Should add 2021 to JUN and AUG to make it clear. 	
https://iweb.lanegara.ca/virtuallearningsupport/student-faqs/	<ol style="list-style-type: none"> Links not descriptive "Online tutorial" not contextual Collapsible menus could be H2 for easier nav 	<ol style="list-style-type: none"> Don't just post URL, describe destination via hyperlink text Try "You may want to find an <u>online tutorial to learn basic computer skills.</u>"
https://iweb.lanegara.ca/virtuallearningsupport/tips-for-online-learning/	<ol style="list-style-type: none"> Tips & Resources mostly PDFs, indicate that with "... (PDF)" "Counselling Success Tips for On-Line Learning" is not a PDF. List with "black square" bullets is very difficult for screen reader software to interpret/very annoying for a screen reader to have to hear over and over. Best to replace them with standard bullets and properly formatted list and change CSS to black squares for bullets if absolutely necessary. I think aria-hidden tag is in wrong place or improperly formatted to hide icons before text in each level. 	<ol style="list-style-type: none"> PDFs will also have to be checked for accessibility and may need to be reuploaded. My responsibility, will update you. This is probably built into elementor? If you can't change it with CSS, we will have to remove them and replace with a different style of bullet. This would be similar issue to home page

Documented [SK35]: Plug-in's default. Unable to change. might change the calendar in the near future.

Commented [LM36R35]: Ok, not the biggest issue, but confusing to a non-sighted user.

nnmented [SK37R35]: There is a hacky way to add
om text at the end so it will say "Jul 2021". But it will be
f coded and every time new year arrives. We will have
manually update it in the CSS.

Commented [LM38R35]: Let's put a pin in it for now.

mented [SK39]: Not yet worked on this page. Will
o in mind these points when changing.

Commented [SK41]: Added "(PDF)" on download links.

mented [SK40]: Not yet worked on this page. Will
o in mind these points when changing.

	5. Links should not be headings, change style with CSS, not HTML	
https://iweb.lanagara.ca/virtuallearningsupport/living-learning-online/	<ol style="list-style-type: none"> 1. "Learn more" links not contextual 2. Long Vo picture needs proper alt text with description 	<ol style="list-style-type: none"> 1. "Learn more about Theint" and "Learn more about Laim"
https://iweb.lanagara.ca/virtuallearningsupport/apps-brightspace-tutors/	<ol style="list-style-type: none"> 1. "Book appointment" not contextual 2. Video lacks title/alt 3. PDFs should be indicated, may need to be re-uploaded for accessibility. Also links to PDFs should not just be file name as it is jarring to hear read aloud without spaces, punctuation etc 4. Videos in "Get To Know Your Tutors" need titles/alts 5. Brightspace icon before "Navigating Brightspace" is not an image and is just jumbled code to a screen reader, so add an aria-hidden 	<ol style="list-style-type: none"> 1. Ad id= attribute. If cannot add title to code, move "Video introduction to..." text above video. 5. Screen reader only recognizes the Brightspace logo, but identifies it as an unknown image. Ignores the Office and BCAP logo though. <pre> ▼ list: "" ▼ listitem: "Navigating Brightspace" ▼ text container: "" diagram: "" ▼ text container: "" text leaf: "Navigating Brightspace" ▼ listitem: "Working With MS Office Apps" ▼ text container: "" diagram: "" ▼ text container: "" text leaf: "Working With MS Office Apps" ▼ listitem: "BCAP 1200 Course (Content For Business Computer Applications)" ▼ text container: "" diagram: "" ▼ text container: "" text leaf: "BCAP 1200 Course" text leaf: "(Content For Business Computer Applications)" </pre>
https://iweb.lanagara.ca/virtuallearningsupport/online-learning-tools/	<ol style="list-style-type: none"> 1. Have Open in new window glyph but do not open in new window. 2. "Learn more" links lack context. 	<ol style="list-style-type: none"> 1. Best practice for accessibility is to have links open in same window. 2. Change links to "Learn more about D2L" "Learn more about Zoom" etc

Commented [SK42]: Added recommended text.

Commented [SK43]: Changed alt text and description.

Commented [SK44]: Changed to "Book appointment with tutors".

Commented [SK45]: Title is available. No option to add alt text.

Commented [LM46R45]: I forget this was HTML video.

Commented [SK58]: Moved text above video.

Commented [LM59R58]: That works.

Commented [LM60R58]: However, videos do not have subtitles. Are these videos hosted on Kaltura?

Commented [SK61R58]: These videos are directly uploaded as mp4 in media folder of WordPress.

Commented [LM62R58]: Ok, we will have to find a solution to this.

Commented [SK47]: Updated names with proper spacing and added "(PDF)" to the names.

Commented [SK48]: Added spaces, and "(PDF)" in names.

Commented [SK49]: Title is available when media is uploaded, it has a title. No "alt" option for video files.

Commented [SK50]: Removed alt text, should be treated as decorative image and ignored by screen reader.

Commented [LM51R50]: alt="" is required for decorative image, these SVGs lack alt of any kind which is problem for screenreader software. Could also make alt="" for book appointments illustration

Commented [SK52R50]: WordPress media says "Leave ...

Commented [LM53R50]: Yes, but what they mean by ...

Commented [SK63]: Updated to open in new tab. ...

Commented [SK64]: Updated as recommended.

	3. Some logo images have alt text some do not. You could probably have alt="" to indicate them as decorative images	
https://iweb.lanagara.ca/virtuallearningsupport/writing-and-tutoring-support/	<ol style="list-style-type: none"> 1. Best to start with an H1 2. Then "Online Writing Support" should be h2 not 3 and "Writeaway" etc. Should then be h3 and "Self-help writing guides" then h2 and "Subject Tutoring" etc should be h3. 3. Image in writeaway and subject tutoring could have alt="" 4. WConline, could we make it WC Online? Just because JAWS reads it W Conline 5. Research methods et al. See screenshot > The icon above the text is an h3? So it reads "heading level 3, link..." which is very confusing. Additionally, because the icon is the link, the link is read as a url which is jarring for screen reader users. 6. Links in self-help writing guides read "writing-centre/term-paper" "writing-centre/summarizing" "writing-centre/guides" and ".../quote" but need to be descriptive, unique. The links are attached to the icons. See: https://kittygiraudel.com/2020/12/10/accessible-icon-links/ 	<pre> </div> <div class="elementor-icon-box-content"> <h3 class="elementor-icon-box-title"> </h3> <p class="elementor-icon-box-description"> Research Methods</p> </div> </div> </pre>
https://iweb.lanagara.ca/virtuallearningsupport/library-services/	<ol style="list-style-type: none"> 1. Best to start with h1 for Library Services then H2 for "borrowing at the library" etc 2. Make all the images alt="" 3. "E-Books, Databases, Streaming Media" has what appears as a list, but is not formatted as such, please make it 4. "Chat" or "email" links could have more context. "Chat with reference desk" or "email reference desk" etc might be better. 5. Link boxes "submit a request" etc. Showing up as graphics for JAWS 	

Commented [SK65]: Added alt text.

Commented [SK66]: Currently working on changes for this page. Will keep in mind these points.

Commented [SK67R66]: Page updated with new design. Please have a look.

Commented [LM68R66]: Hi Sumeet, see the accompanying notes regarding changes to these pages

Commented [SK69]: Currently working on changes for this page. Will keep in mind these points.

Commented [SK70R69]: Page updated with new design. Please have a look.

Commented [LM71R69]: Hi Sumeet, see the accompanying notes regarding changes to these pages
